Overview

- Balance Design Group has created e-retail sites since 1998.
- Our consultants can advise you of the many factors involved in e-commerce
- We have a customisable Product Database & Shopping Cart system

Balance Design Group has produced & delivered many projects involving e-commerce capabilities.

From e-retail and websites to subscription and membership websites, Balance Design Group has the knowledge and experience to help your company through the process of establishing on-line transaction capabilities.

Our e-commerce shopping basket system uses tried and tested technology and integrates into all major e-Gateway provider technology. (We recommend SecurePay)

Our team will also consult with you, and help you with basic requirements such as selection of Digital Security (SSL Encryption Certificates), Privacy Policies, Returns Policies, Terms and Conditions and many other factors involved in setting up e-commerce websites.
